

Below are policies and procedures on taking a Bianco Tour:

- There will be no temperature checks by Bianco Tours upon boarding the motor coach. If this is something you choose to do, please feel free.
- Masks are to be worn at all times while boarding, on board and de-boarding the motor coach. The mask policy at the attractions included in the tour is decided by the vendor.
- The tour driver will stay 6 feet back from the entry door while the passengers board and de-board.
- Both front rows (4 seats total) will be blocked off and no seating allowed.
- The driver's microphone on the motor coach is to be used by the driver only.
- All of the coaches have a plexiglass barrier behind the driver along with touch-less hand sanitizer dispenser.
- If anyone on the motor coach has food, snacks, water etc.. We ask that when they are done to please dispose of all contents in the garbage bag provided at each seat next to the window.
- Once passengers are seated on the motor coach, please have them stay seated...we would like to discourage passengers from roaming around while on board the motor coach.
- The number of passengers on each tour will be based on what the vendors capacity is at that time in which I will advise you of upon booking. We will leave the seating arrangements up to your discretion. You can decide how you would like to space your passengers based on your comfort level.
- We have attached a numbered seating diagram to this email to help assist you with planning out the seating arrangement.
